

Pictured is the 24" x 12" cast bronze veterans memorial on an optional granite base when a vase assembly is not selected.

Each distinctive veteran's memorial is handcrafted by the skilled artisans at Matthews International Corporation, the world's premier manufacturer of bronze memorials. Matthews uses the finest materials to ensure that your memorial will remain beautiful for generations. To help the memorial retain its natural beauty, Matthews applies its exclusive Diamond Shield® Protective Coating to every memorial.

*A Lasting
Tribute*

The Department of Veterans Affairs provides a 24" x 12" cast bronze memorial free of charge to qualified veterans of the Armed Forces. The memorial can be enhanced through the addition of a matching bronze vase assembly and by placement on a natural granite base. The optional enhancements are available for a nominal cost.

When a veteran orders the memorial provided by the government, their spouse can order a matching 24" x 12" cast bronze memorial to create a Memorial Estate. The bronze memorials can be installed on a granite base that beautifully frames the memorials. A vase assembly for floral tributes can be placed on the granite between the memorials.

The companion memorial, granite base and vase assembly are optional and can be purchased at the time the veteran's memorial is ordered.

When the matching companion memorial is ordered before the time of need, space is provided to add the remaining date at the time of need.

When the memorial to match the free veteran's memorial is ordered before-need, space is provided to add the final date for that person at the time of need. This completes the companion memorialization.
